Programming analysis of pore space, 581
Proto-imogolite sols, solubility characteristics of, 179
Proton binding by humic acid, 95
Proton-humic acid equilibria, 471
Pure clays and net particle charge, 657
Pyrolysis methylation—mass spectrometry of whole soils, 567

Radio-caesium fixation dynamic measurements, 461
Reduced soil, phosphate solubilization by rice in, 247
Referees for 1994, 329
Relation between structure and moisture release, 369
Rice phosphate solubilization, in reduced soil, 247
Roughness, modelling surface, 215

Sandy soil, cadmium sorption by, 649
  phosphorus forms under palm orchards in Saudi Arabia, 481
Saturated soil aggregates, anaerobiosis in, 519
Saudi Arabia and phosphorus forms under palm orchards, 481
Seedbeds, structural change in, 205
Selenite, adsorption to goethite, 47
Silty soils, organic matter distributions in, 449
Simple-structured soils, models of anoxia and denitrification in, 507
Sodium, adsorption behaviour on humic acids, 303
Soil aggregates, anaerobiosis in, 519
Soil bacterial community, molecular phylogeny of, 415
Soil matric potential, measuring using filter paper, 233
Soil micromorphology, image analysis applied to, 29
Soil monitoring, estimating temporal change in, 1, 13
Soil properties, modelling spatial variation of, 397
Soil structure and aluminium chemistry of soil in an acid forest, 613
Soil, effects of nitrous oxide fluxes, 541
Soil-humus-pesticide interactions, 287

Soil-solution pH, effects of organic and inorganic calcium compounds on, 53
Solid-solution distributions of chemicals in acid soils, modelling, 77
Sols, solubility characteristics of, 179
Solubility characteristics of proto-imogolite sols, 179
Soybean field, molecular phylogeny of a soil bacterial community in, 415
Spatial variation of soil properties, modelling, 397
Spectrometry of whole soils, 567
Strontium, adsorption behaviour on humic acids, 303
Structural change in a Vertisol, 357
Structural change in seedbeds, 205
Structural crust formation on coarse-textured soils, 221
Structure and moisture release, relation between, 369
Subject index, 683
Subsoil acidity, amelioration of, 53
Sulphate soil, phosphate sorption in, 641
Superphosphate effects on organic matter in pasture, 257
Surface roughness, modelling, 215
Sustainability and entropy, 161

Temperature and phosphate sorption in acid sulphate soil from Vietnam, 641
Temporal change in soil monitoring, 1, 13
Textural porosity of a clay-loam soil, 377
Thiazafluron in mineral soil, adsorption of, 431
Tilth mellowing in a Vertisol, 357
Torripsamment, phosphorus forms under palm orchards in Saudi Arabia, 481
Trace elements, field-based partition coefficients for, 265
  adsorption on kaolinite, 633
Tropical soils, zinc sorption by, 317

Variation of textural porosity of a clay-loam soil, 377
Vertisols, non-uniform volume changes in swelling clay soil, 345
  structural change and tilth mellowing in, 357
Vietnam, phosphate sorption in acid sulphate soil from, 641

Water content changes in swelling clay soil, 333, 345
Wetting changes in seedbeds, 205
Whole soils, pyrolysis methylation—mass spectrometry of, 567

Zinc adsorption on kaolinite, 633
Zinc sorption by acid tropical soils, 317
